### “Marriage Concept”

The bride has used inorganic (chemical) mehndi for her mehndi function. But her hand got allergic reactions. So eventually the day was ruined. Later the bridesmaid came. She has used Marudhani on her hands for this function, and the glow is insane.

So, the bridesmaid had some Marudhani pre-preparedly that her grandma gave. So she gave the organic mehndi to the bride.

So, even when the inorganic can't give, the granny's Marudhani did the magic.
